

Synthesis of the Sense

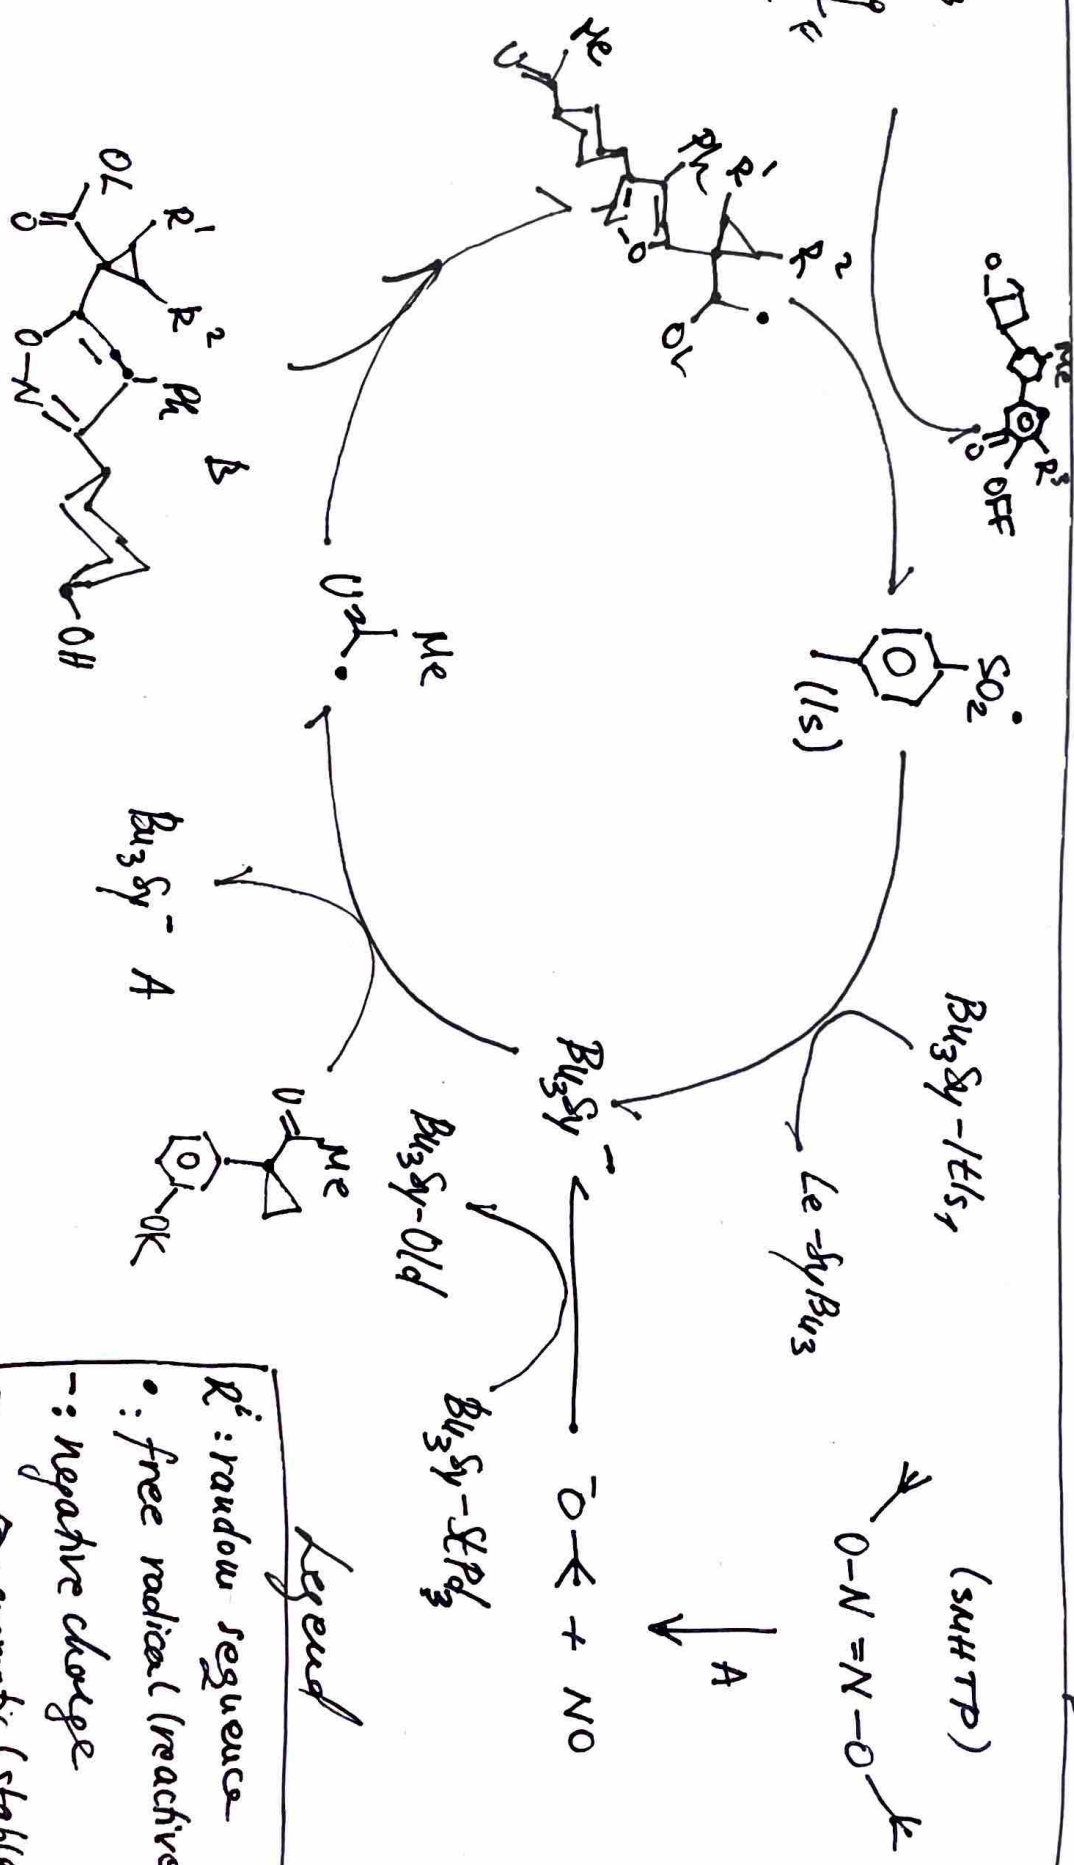

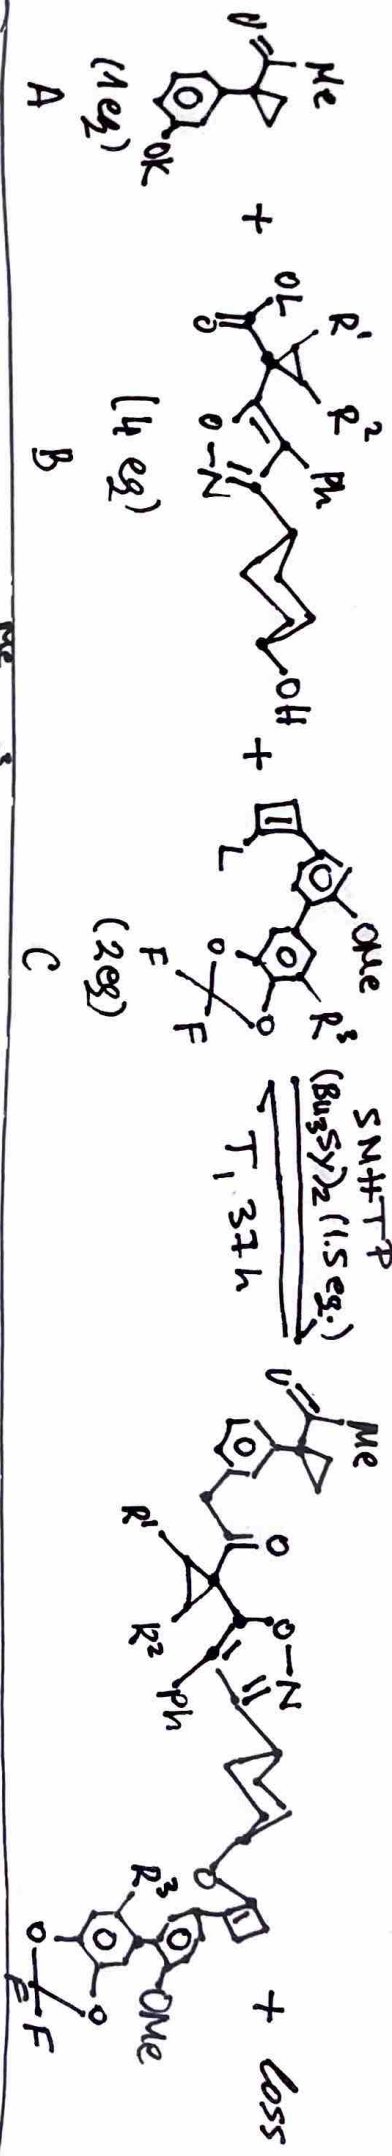

Let's see if there is any difference
between synthesizing sense and
making sense of the synthesis.

The elements in the composition are not words
nor chemical structures.

Yet, they can become anything,
depending on the performer.

Jana Lukic

Legend

- R' : random sequence
- $\cdot$: free radical (reactive)
- $-$: negative charge
- $\text{O}^\ominus$ or $\text{O}^\ominus$: aromatic (stable)
